Projects

Project Name: Vlabs(2024)

-A comprehensive system aimed at facilitating efficient utilization of open computer labs within an educational institution. It provides students with a streamlined platform to view the availability of computer labs, reserve a computer for specific tasks, and manage their session effectively.

Project Name: Church web app (2024)

A church web application can bring about significant changes in how a church operates and engages with its community by providing a centralized platform for sharing news, events, and updates, ensuring the congregation stays informed.
